-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

- 6) ☐ Other: ____.

DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1. There is no "special technical feature" common to all the groups which defines the contribution which each of the invention makes over the prior art. In the present case, there is no common "special technical feature" because the general inventive concept set forth for example in claims 1, 3 and 11, does not define over the teachings of the prior art (US Pat 5,250,950).

The species are as follows:

- a. Figure 7 (Claims 1-17)
- b. Figure 8 (Claims 11-17)

2. Upon election of one of species a or b above, there is a lack of unity between the following patentably distinct species, disclosed as alternatives to each other on page 3, line 32 of the specification:

- c. An Aircraft (Claim 1-17)
- d. A missile (claims 1-2, and 11-13)
- e. A ship (claims 1-2, and 11-13)
- f. A vehicle (claims 1-2, and 11-13)

Art Unit: 3644

3. Upon election of one of the species a or b above, there is a lack of unity between the following patentably distinct species of outer edge sections

g. Figure 5 (Claims 1-5, 7-9, 11-16)

h. Figure 6 (Claims 1-4, 6, 7,8,10,11-15,17)

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

4. The claims are deemed to correspond to the species listed above in the following manner:

The following claim(s) are generic: see listing above

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
